# Fabriksparken Sundbyberg

# EQUIPMENT & ACCESSORIES

# Drawers and pull-outs

# Base Panel System

Our base panel system offers total flexibility. On a non-slip linoleum base, spacer bars allow the space to be divided according to the customer's requirements.

# Our Drawer System

Our drawer system is developed to ensure that this is always the case. One has the choice between maple and walnut. But most importantly, you can choose between different variants. And you know already: It will fit perfectly. In every drawer and every extract.

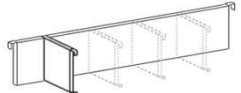

## Crosswise Dividers

Our special lateral dividers ensure that everything stays where it should, even if a drawer is opened with considerable force. This system enhances your considerable flexibility. So you can arrange your drawers and pull-out units in exact accordance with your needs.

# Crosswise Dividers
